

HEMP PROTEIN POWDER

FOOD4CHANGE

Our hemp seed is sourced from both conventional and organic growers across Canada where hemp production has been allowed since 1998. All of our hempseed products are manufactured from varieties of Cannabis Sativa that do not contain significant amounts of THC, the psychoactive element present in the cannabis plant. The seed cake produced from our cold-pressing process of the hemp seed is milled to produce a nutrient rich protein powder, available in varying concentrations of 35%, 43% and 50%.

Quick Facts:

- Plant-based protein source with twenty amino acids, including all nine essential amino acids
- Non-GMO, gluten and allergen free
- Contains sterols, aliphatic alcohols, and fiber
- Ideal ratio of omega-3 and omega-6
- Water dispersible, earthy flavour and creamy texture
- Add as an ingredient to bars, baked food products, and supplements
- Ideal as an ingredient in smoothies, dairy-free milk beverages, and juices
